TAX APPEAL NOTICE.

Notice is hereby given that the Court of Tax Appeals for the District of Honolulu will sit at the District Court Room on TUESDAY, the 20th day of November, A. D. 1894, at 1:30 o'clock p. m., to hear such appeals as may be brought before it.

A. PERRY,
President of Court of Tax Appeals for District of Honolulu.
Dated Honolulu, H. I., Nov. 17, 1894.
118-21

IRRIGATION NOTICE.

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 7 to 8 o'clock a. m., and from 4 to 6 o'clock p. m.

A. BROWN,
Superintendent Honolulu Water Works.
Approved:
J. A. KING,
Minister of the Interior.
Honolulu, May 24, 1894.
118-21

WATER NOTICE.

Owing to the drought and scarcity of water, the residents above Judd street are requested to collect what water they may require for household purposes before 8 o'clock a. m.

A. BROWN,
Superintendent Honolulu Water Works.
Honolulu, H. I., July 24, 1894.

AN ANNUAL VISIT

To the Leper Settlement at Molokai
—New Steamer's Trip.

The departure of the steamer Keanohou of the L. I. S. S. Co.'s line, on Friday evening for the settlement at Kalaupapa, Molokai, has been already mentioned up to her short detention of the lighthouse. From thence on the voyage was uneventful by reason of the smooth sea, pleasant weather and the notable absence of wind. The spar buoy was passed on the outward trip, at 10:25, and five minutes later the bell buoy was left astern; the vessel as yet only under half speed. At 10:40 departure was had from Diamond Head and there seemed but little difference in the easy roll, which the largest vessel, now commencing to induce us, from here to the mid-channel, which was known to have been reached by Molokai light being sighted at 1:00 o'clock. The sea was smooth, and but little wind was indicated, yet the short cross swell, which came in from southeast, would have made the voyage very uncomfortable for passengers in a less worthy sea boat. Engineer Wessner at his post in the engine-room was watching the action of the machinery and expressed pleasure and surprise at the satisfactory manner in which the engine and its parts had stood, without heating, the work already performed, not the least of which was the labor attendant upon the attempt to back away from the contact near the lighthouse. Captain Le Claire praised the readiness with which the steamer answered her helm and Chief Officer Karstou, who had accompanied the vessel in her voyage hitherto from San Francisco, gave several instances of her ability as an excellent seaboat. Amidships and aft the sound of voices raised in song and laughter gave evidence that the accommodations were ample and that tribute to Father Neptune had not been demanded. At 4:30 o'clock, after having run under half speed for nearly half an hour, the shore lights of Kalaupapa were sighted and Captain Le Claire, although the darkest hours were on, stood in and soon came to anchor within 100 yards of the landing. Breakfast was had at 5:30, after which President Smith of the Board of Health provided for the conveyance on shore of Father Leonor and party, who were the first to land, the other voyagers following later at intervals.

The Kalaupapa of to-day, as now seen from the sea, is far different from the Kalaupapa of even a few years ago. Then a few houses, widely separated, with no sign of order or neatness, little show of vegetation and few indications of life. Now although at early morn, the white cottages, close and compactly placed, gave an air of good fellowship and comfort. The growth trees lifting their heads in many places and the lower shrubbery added a charm in which distance lent some enchantment to the view. And then the air of active life given by the many people hurrying to and fro made former visitors to Kalaupapa appreciate a great change for the better in this sad city by the sea.

After the party had landed and paid a visit to Superintendent Hutchinson's house, an official visit of inspection was made to the Bishop Home for Girls. In this visit President Smith took the professional gentlemen and others who were in the party in and through a dozen separate buildings used as classrooms, dormitories, playrooms, etc. The Mother Superior accompanied the party of visitors and, though mild in her speech and gentle in manners, it was plainly apparent to all that her strong and earnest desire was that a thorough inspection and inquiry would be had of the institution which is so fortunate as to have the able conduct of her and her co-workers in the cause of humanity. Needless to say that everything was cleanly, neat and orderly, and that the unfortunate inmates showed in their simple way that they were as happy as circumstances permitted. From thence to Kalaupapa, where a short visit to Dr. Goto's establishment was made, a plethora of signs suggesting that the visitor "Drink Hires' Root Beer" being one

Timely Topics

Nov. 17, 1894.

Sulphurous fumes permeate the atmosphere to-day.

The rainfall has been a great comforter to the parties who own crops as well as to the people who drive along Bereania street past the "horse scarer" at Thomas Square, for the unsightly thing has been removed. The mud is disagreeable but the annoyance is decreased when you have a Hartmann Steel Mat. It is astonishing how quickly and thoroughly the soles of the shoes are cleaned by rubbing them over the steel. We have the mats in various sizes for the house, store or public building.

Another novelty in the way of a Blacking Box. By the "C. D. Bryant" we received a lot of Blacking Boxes (Japanese and nicked), which fold up against the wall and are completely out of the way. You've seen them advertised in the magazines and thought them a good thing. You were right in your opinion because they are a good thing and well worth the \$2.50 you pay for them.

The Premier Egg Cups do not seem to be known here judging from the many inquiries we have had from people who said they had never heard of them. These cups are made of porcelain just like a tea cup, only smaller, and have a nickel plated top which screws on. The cook breaks the eggs in the cup and puts the lid on and then drops it into hot water. In a few minutes the egg is cooked and brought to table in the cup. The advantages of this egg cup are several. In the first place there is no danger of having a superannuated egg dropping into your glass when you are ready to eat your breakfast; if the eggs are too ripe it is not known outside the kitchen because your cook will learn of it when he breaks the shell, and before the egg is cooked. It is not a pleasant occupation to break the shell of a hot egg anyway. If it was boiled eggs would not have been placed in the armpits of criminals in the day of the inquisition. With a Premier cup you simply unscrew the lid and the egg is ready to eat, and your finger tips have not been scorched. We sell the cups singly or by the dozen.

It's a little more than a month until Christmas and you probably haven't made the slightest preparation for it. Let us call your attention again to our assortment of Rookwood. It contains a number of useful pieces as well as some good only for ornamentation. There are no duplicates; every piece differs from its neighbor either in decoration or shape. Rookwood compares favorably with Crown Derby or Royal Worcester but is much less expensive. The coloring is richness itself and never grows tiresome.

The "Alameda" will bring us other goods for Christmas; before making purchases elsewhere come and look at our stock.

Shoes

Are an article that most people wear, and these same people generally want good Foot Wear, and if they don't get it, it's money's worth, they won't come again.

Shoes

that fit well are a joy forever—to the wearer. Lately, SCHUBER & MITCHELL'S shoes for Ladies and Children are the superior of any other manufacture.

Shoes

for men are bought for their durability. If a man buys a shoe that "breaks away" in a week or two he doesn't want another pair from the same factory. JONKOS & MURPHY make the best Gent's Shoe on the market.

Shoes

from the above and other well known firms are for sale at our New Store, No. 105 Fort St. These goods are just opened, and are the very latest styles, and at prices to suit the times.

McINERNEY'S,

105 Fort Street.

KING BROS.

We beg to announce the return of our artist from the states where he has been spending the past year seeking useful knowledge and new ideas.

We are better prepared than ever to fill orders for anything on the line of decorative painting on china, glass or any other material.

Leave your orders early for Dinner, Xmas or other cards of Hawaiian get-up.

We now make a specialty of coloring lantern slides, and photos.

Call and see what we have to show.

KING BROS.

ELECTION OF OFFICERS.

AT THE ADJOURNED ANNUAL Meeting of the UNION FEED CO., LTD., held on Friday, the 16th inst., the following officers were elected for the ensuing year:

E. C. Macfarlane, President
W. F. Allen, Vice-President
W. W. Macfarlane, Manager & Treasurer
E. Klump, Auditor
E. R. Vida, Secretary

Christmas Box

NOTHING so correct as a New Break. We manufacture all kinds to order and we have ample time between now and the holidays to get up something that will make a very suitable present.

HAWAIIAN CARRIAGE MFG CO.,

No. 70 Queen Street

A TAX ON INCOMES

has received much discussion, its chief commendation, or condemnation, of course, being that it does not hit everybody. When the British Government wished to reach everybody in India with a tax, it was found necessary to levy it on salt, as that was the only article that everybody used.

TO INCREASE INCOME

is the problem to-day engaging every thoughtful person. There are few indeed, who can get along without drugs—medicines, or the good things kept by a modern drug store. Is this not a fact?

THE POINT

we wish to make is this: Do you prefer paying the prices asked for twenty years in Honolulu for drugs and patent medicines, brushes and other sundries, or buy from us at cut rates? We have gained hundreds of new customers during the past few months. Why? Because they have found that they get everything of the best quality at a less tax on their income.

SOME PEOPLE THINK

we have discontinued cutting, but they are misinformed. We have not tried to stop. We like it and we are not sorry we started it. We will continue so long as the public approve of our method of doing business.
